

# Performance Measurement Update

## Is your facility prepared for the QIS Survey?

Manage the new survey process and your QA program all year long ...

- Instant entrance Census and New Admission reports
- Survey process outlined
- Stage I worksheets
- Stage II Critical Element (CE) Pathway worksheets
- Report of residents that triggered each of the 20 CE's
- Report comparing facility performance against national CE thresholds
- Report of all CE's triggered by each resident
- F-Tags at risk report

*QIS Survey  
National Roll-out occurs  
June 2010 through June 2015*

Each state has 2-3  
years to complete their  
roll-out once initiated

The screenshot shows the AccuMed Connections web application interface. At the top, there is a navigation bar with links for "CHOOSE FACILITY | WORKSPACE | LOGOFF | HOME | CONTACT" and "Other | Admin | HomeBase". The main header features the "AccuMed Connections" logo with the tagline "CHART | TRACK | MANAGE" and the title "Performance Measurement". Below the header, there is a sub-header for "Lakeview Manor" and "Last transmission: 5/18/2011 2:31:16 PM". A sidebar on the left lists various reports and settings, with "QIS Survey" highlighted. The main content area displays a list of links for "QIS Survey Worksheet Links", "QIS Survey Resource Links", "Resident Census", "New Admission Information", "PASRR II screening", "Critical Element Pathways", and "F-Tag Report". Below this, there is a section for "3.0 Facility Report Descriptions". At the bottom of the interface, there is a "Secured by thawte" logo, the AccuMed Technology Solutions logo, and copyright information: "Copyright 2000-10. Connections Performance Measurement. All Rights Reserved." and "LEGAL | PRIVACY".
